

I Wish You Peace

Almost every moment, a starving person dies
In the midst of our abundance
Do we even realize?
I am among the guilty, I could do so much more
And so I make this pledge today
Of what I'm living for

I wish you peace, I wish you love
I wish you blessings from above
We can try to make this world a kinder place
There is a lot that we can do
If we make our minds up to
All the loss and tears and pain that seek release
I wish you peace.

We don't need a miracle, or a magic wand
One step forward gets you help
Power from beyond
God will always help us, relieve our brother's pain
He helps us build a rainbow
From our brother's rain

CHORUS

I don't have the answers
For those I look above
But every time I ask I hear
Its love
It all leads back to love

I wish you peace.
