

## **No Big Deal**

We all make mistakes from time to time  
Everybody's human and it ain't no crime  
Just pick yourself up, no matter how you feel  
Forget about it baby  
It ain't no big deal

When you're on the top it's a fantasy  
You'll soon be on the bottom, take it from me  
Life is always neutral, and it's always real  
So forget about it baby  
It ain't no big deal

BR: Pain is an illusion too  
It wants to drain the life out of you  
But if you stay with it you'll make it through  
And you'll see  
You're free

Failure and success are the same old storm  
You can rise above it if you don't conform  
Opinions are nothing, just the facts are real  
So forget about it baby  
It ain't no big deal
